

# LogiKal Guide Discount Groups

## System Discount Conversion June 2026 (version 008)

The below guide will allow you to easily convert your system discounts into LogiKal.

**To add the discount rates into your LogiKal, please navigate to:**

General > Estimation > Estimation Data Sets > Double click the data set you want to amend (the default is < STANDARD >) > Select Next > Right Click the relevant discount group > Edit Discounts > Add the value into the Discount Field. **You can hold CTRL to select multiple at once.**

Your Area Sales Manager will provide you with a discount form, which looks similar to the below:

SLIDER	System/Family Name	S146LM	-100.00%	-100.00%	-100.00%

Within LogiKal, these discounts are converted to the below formula:

**System Name-P = System **Profile** Discount**

**System Name-H = System **Hardware** Discount**

**System Name-V = System **Accessory** Discount**

**Surcharges, based on the June 2026 Temporary Uplift can be entered as per the below.**

- Any Discount group that ends in "-P", change the factor to **1.085**
- Any Discount group that ends in "-H" or "-V", change the factor to **1.035**.

Piece / Length Prices	Discount Gro...	Factor (Surcharge)
Aluk Group 58BD-P		1.06 (= +6.0%)
Aluk Group 58BD-V		1.01 (= +1.5%)
Aluk Group 58BW-V		1.01 (= +1.5%)
Aluk Group 67CL32-H		1.01 (= +1.5%)
Aluk Group 67CL32-P		1.06 (= +6.0%)
Aluk Group 67CL32-V		1.01 (= +1.5%)
Aluk Group 77ID-P		1.06 (= +6.0%)
Aluk Group 77ID-V		1.01 (= +1.5%)
Aluk Group 77IW-V		1.01 (= +1.5%)
Aluk Group BSC94-H		1.01 (= +1.5%)
Aluk Group BSC94-V		1.01 (= +1.5%)
Aluk Group BSF70-H		1.01 (= +1.5%)
Aluk Group BSF70-P		1.06 (= +6.0%)
Aluk Group BSF70-V		1.01 (= +1.5%)
Aluk Group C70S-V		1.01 (= +1.5%)
Aluk Group F80-H		1.01 (= +1.5%)
Aluk Group F80-P		1.06 (= +6.0%)

For example, on the first image, **58BW "Accessory"** discount (with the **red arrow**) would need to be applied to the discount groups **AluK Group 58BW-V** and **AluK GB 58BW-V**.

If there are any blank discounts next to specific systems, such as the **Multiseries "Profile"** discount (with the **green arrow**) you would need to apply your Standard Discount for Accessories to **AluK Group MULTISERIES-P** and **AluK GB MULTISERIES-P**.

Within your Logikal Estimation Data, your discounts should look like the below (may be different if you have multiple suppliers):

AluK Group MULTISERIES-P		1.00	0	
AluK Group NOT ALUK		1.00	0	
AluK Group S140-V		1.00	0	

**You should have a list of discounts, for both "AluK Group" and "AluK GB". The same discount name may be present in both databases. Please ensure you apply your discount to both.**

On the "Discount Type Name" screenshot from your ASM, you will have one called "All Other". This is your **standard system discount**, for **Profiles**, **Hardware** and **Accessories**.

For any system specific discounts, such as **58BW**, **58BD**, **BSF70** & **F80** shown on the example image (on the discount list from your ASM), you will need to apply this rate instead.

For any discount groups in Logikal that are not shown on the document from your ASM (such as AluK Group Gasket), this can be left as 0, as these parts are not used within the UK.

If you would like us to check your discounts in Logikal are correct, select the Print option within the estimation data (bottom right) and send it to [Software.uk@aluk.com](mailto:Software.uk@aluk.com).

If you have any further questions, please contact your Area Sales Manager (for assistance with Discount Rates) or [software.uk@aluk.com](mailto:software.uk@aluk.com) if you require assistance adding to Logikal.
